

Indicator® Radiopaque Markers - CT and X-Ray

Precision and Convenience in a Wide Variety of Applications

Our Indicator® Radiopaque Markers can be used in a variety of imaging procedures to identify any point of interest, including:

- Masses
- Scar tissue
- Moles
- Isocenter
- Points of Pain

Users appreciate their ability to provide a clear, accurate reference point that is free of spray artifacts. The flat design prevents tissue indentation and the clear adhesive backing aids in precise marker placement. In addition to enhancing accuracy, they promote procedural efficiency with double pulls tabs that permit easy application and removal. IZI now offers a raised BB marker.

Product Benefits

- Creates precise reference points without artifacts
- Works for CT, X-Ray, fluoroscopy, angiography
- Disposable
- Available in a variety of shapes and sizes for most applicants
- Flat design
- Double pulls tabs
